Levin Kaus

IAM Architect & Trainer

support@levinkaus.de | levinkaus.de | linkedin.com/in/levinkaus

Profile

IAM architect and trainer focused on customer and workforce identity, fine-grained authorization, identity governance, and privileged access. Hands-on experience with Auth0, OAuth/OpenID Connect, AuthZEN, and policy-based authorization. Delivering professional training on IAM for agentic AI in collaboration with qSkills.

Professional Experience

umbrella.associates **Oct. 2024 – Present**
Working Student → IAM Architect *Remote, Germany*

- Designed and implemented customer identity and single sign-on solutions with Auth0, OAuth, and OpenID Connect.
- Contributed to the *Föderale API-Autorisierungsinfrastruktur* initiative, focusing on fine-grained authorization, policy-based access control, and AuthZEN.
- Serve as a trainer for qSkills' recurring one-day *IAM for Agentic AI* course, covering MCP, OAuth, delegated access, and governance; represented the training programme at it-sa.
- Worked on workforce identity, identity governance, and privileged access with Microsoft Entra ID, Omada, CyberArk, and other IAM platforms.

HeyOishii **Jul. 2025 – Present**
Co-Founder & CEO *Germany*

- Co-founded an Asian grocery e-commerce business; responsible for sourcing, online operations, fulfilment, and accounting.

TU Darmstadt, Directorate of International Affairs **Sep. 2023 – Sep. 2025**
Student Assistant *Darmstadt, Germany*

- Coordinated exchange programmes with North America and Singapore and liaised with students and partner universities.

INVENSITY **Oct. 2023 – Mar. 2024**
Software Development Intern *Wiesbaden, Germany*

- Developed a GDPR-compliant iOS business caller-identification app using Swift and Microsoft Graph API.

TU Darmstadt, Department of Law and Economics **Oct. 2021 – Mar. 2022**
Student Assistant *Darmstadt, Germany*

- Guided incoming students during their first semester.

CURALUNA **Mar. 2020 – Aug. 2020**
Intern *Frankfurt am Main, Germany*

- Managed databases, analysed the German healthcare market, and maintained the website frontend.

Paradanusorn School **Sep. 2019 – Jan. 2020**
Volunteer English Teacher *Uttaradit, Thailand*

- Taught English and collaborated with international volunteers on classroom activities.

Selected Projects & Open Source

Application Supply Guard | umbrella.associates

- Core team member building a software supply-chain security web application that analyses binaries and containers to produce SBOMs and risk reports. Contributed across Auth0, FastAPI, MongoDB, ReversingLabs integration, Stripe, and Portainer deployment.

Föderale API-Autorisierungsinfrastruktur | umbrella.associates / IT-Planungsrat

- Contributed to a public-sector API authorization architecture initiative, with emphasis on AuthZEN, OAuth, and fine-grained, policy-based access control.

Authlib | Open-source contributions (Jul. 2026)

- Two merged contributions to the Python OAuth/OpenID Connect library (PRs #909 and #911).

Reader | Personal iOS project (May 2025)

- Built a minimalist RSS reader for iOS. reader.levinkaus.de

Education

Technische Universität Darmstadt **Oct. 2024 – Oct. 2026**
M.Sc. Wirtschaftsinformatik (Business Informatics), GPA 1.50 *Darmstadt, Germany*

- Focus on IT security. Master's thesis: *A Modular Traffic Simulation Architecture for Urban Environments – Design and Evaluation in Unreal Engine.*
- Master's seminar at Fraunhofer SIT: *Memorization in LLMs – A Survey on Attacks, Defenses, and Verification.*

Technische Universität Darmstadt **Oct. 2020 – Sep. 2024**
B.Sc. Wirtschaftsinformatik (Business Informatics), GPA 1.64 *Darmstadt, Germany*

- Thesis: *A Qualitative Approach to Explore the Interplay between Privacy Concerns and Perceived Stress.*

Sirindhorn International Institute of Technology **Aug. 2022 – May 2023**
Exchange Student, Thammasat University (two semesters), GPA 1.03 *Thailand*

- Studied digital forensics, machine learning, and natural language processing.

Technical Skills

IAM platforms: Auth0, cidaas, Microsoft Entra ID, Omada, CyberArk, BeyondTrust, Silverfort, authentik
